

(**USER MANUAL**) For the people to use this application, a simpler user manual will be provided to explain how to use Red Present.

- **To install the application in your phone:**

- a. Tap the “Red Present.apk” file. Upon clicking it, it will require you to pick a browser of your choice to start the download of the application.
- b. A dialog box will appear asking if you want to keep the file, press ‘**ok**’.
- c. Download will now begin
- d. After downloading, another dialog box will appear asking you if you want to install the application, press ‘**Install**’.
- e. If the installation is blocked by the system saying that the developers are unknown, press ‘**Install Anyway**’.
- f. Open the app.

- **To use the Application Drawer:**

- a. **Profile Header**
 - i. Profile header is the user’s profile picture and e-mail address based from google.
- b. **My Raiser**

.Ongoing raiser

1. Ongoing raiser is an account's pending raiser that is yet to be completed. After it reaches its target blood bags, it will automatically go to the completed raiser. If the **user wishes to cancel the raiser**, the user can also manually cancel the raise by **clicking view** and **click cancel raiser**.

i.Completed raiser

1. When an ongoing raiser completes the target bags, that specific raiser will go to the completed raiser and it will be removed from the active raisers.

ii.Canceled raiser

1. Canceled raisers will appear if the user canceled the raiser. It will be automatically removed from the active raisers.

- c. **Log out**
Logs you out of the application to use another account.

- **Home Page**

- a. **Raisers**

i.View Button

1. View button will let you see all the raiser's information. You will get to see the blood type, medical condition as to why he/she need the blood bags.

a. Donate Blood

- i. If you are compatible with the raiser's blood, you can donate by lick the donate button, and type in your name and contact number to communicate with your chosen benefactor.

b. Start Donation

Details

1. Input the name of the benefactor, benefactor birthdate, address, blood type and medical condition

i.Goal

1. The goal will set out how many blood bags the benefactor needs.

ii.Media

1. The user can put pictures that can help raise for their benefactor.

iii.Story

1. The user can narrate the story as to why the benefactor needs blood bags. This will also attract donors to let the donors donate blood for the benefactor.

c. Benefits of Blood Donation

- i. The application will list why it is important to donate blood and its benefits.
